FITTING GUIDE

SILICONE CASE VARIA RTL515

15 g silicone case moulded for the Varia RTL515 radar tail light: light, radar sensor, button and quarter-turn mount stay clear. It slips on without tools.

GARMIN VARIA RTL515 · SILICONE, 15 G · LIGHT AND RADAR CLEAR

Before fitting

- Radar **off its mount**, switched off, body clean and dry (damp cloth, then dry): it lives in the spray from the rear wheel.
- Case clean as well: rinsed and dried if it has already been used.
- No tools.

Fitting

1. **Orient the case:** large opening on the light and radar sensor side, opening on the back for the quarter-turn mount, button cut-out on the side.
2. **Slide one end** of the radar into the case, then roll the case towards the other end with a slight stretch.
3. **Centre the openings:** the light lens and the sensor must sit flush, with no silicone edge in front of them.
4. **Check the button and the mount:** the button moves freely, the quarter-turn base on the back is fully clear.
5. **Clip the radar** onto its mount with the case on: it must lock firmly. Switch it on and check the light shines with nothing in the way.

Care

- Rinse the case in warm water after a wet or muddy ride, dry it, refit it. No solvents.
- Now and then, leave the unit out of its case overnight to air.
- Silicone that has gone slack after months has done its job: replace it.

Specifications

Compatibility	**Garmin Varia RTL515**	Does not fit	**Varia RCT715 (own case)**
Material	**Silicone**	Weight	**15 g**
Protects from	**Impacts, scratches, dust**	Kept free	**Light, radar, button, mount**

IF SOMETHING GOES WRONG

- **Silicone edge in front of the light**: the case is off-centre; slide it until the lens sits flush.
- **Radar will not lock**: the case is riding up around the rear opening; push it fully down and try again.
- **Stiff button**: cut-out out of line, lift that side and recentre.

WHAT IT DOES NOT DO

- It does not make the radar waterproof and is no substitute for a mount in good condition: a mount that slips gets replaced, the case only cushions the fall.
