QUICK GUIDE

HARD CASE FOR GARMIN EDGE

Moulded hard shell in PU and high-density EVA, 15 × 10 × 4.5 cm, to carry and store a large Garmin Edge with its accessories. It protects off the bike: bag, suitcase, workshop drawer.

EDGE 1050, 1040, 1030, EXPLORE 2 · PU + HIGH-DENSITY EVA · 15 × 10 × 4.5 CM

What it does

The moulded shell does not crush and takes impacts and scratches instead of the computer; inside, the computer and its small accessories stay together in one place. It resists water spray: rain on a bag, a damp car boot.

What fits inside

- **One computer**: Garmin Edge 1050, 1040 or 1040 Solar, 1030 or 1030 Plus, Explore or Explore 2. A smaller model also fits, with room to spare.
- **Its accessories**, in the internal compartments: USB cable, sensors, earphones, memory cards, a compact power bank.

Packing

1. **Computer dry and clean,** switched off, in its slot: nothing may rest on the screen.
2. **Coiled cable and sensors** in the facing compartment, each in its place so nothing rubs against the body.
3. **Close without forcing:** if the zip resists, the case is overfull and something is pressing on the computer.
4. **In the bag or suitcase,** lay it flat or on its side, away from sharp objects.

Care

- Damp cloth on the shell, soft brush inside for sand and dust.
- After a wet day, leave it open for a few hours before storing the computer in it.

Specifications

Compatibility	**Edge 1050, 1040, 1030, Explore 2**	Material	**PU + high-density EVA**
Structure	**Moulded hard shell**	Dimensions	**15 × 10 × 4.5 cm**
Protects from	**Impacts, scratches, crushing**	Water	**Resists spray**

IF SOMETHING GOES WRONG

- **Zip that forces**: overfull; take an accessory out rather than pushing on.
- **Condensation inside**: a computer was stored wet; dry both, case open.
- **Marked screen**: something was resting on it; accessories go on their side, never on the computer.

WHAT IT DOES NOT DO

- Spray-resistant is not waterproof: it does not go under water. It is not a mount: on the bike, the computer goes on its quarter-turn mount, out of the case.
