QUICK GUIDE

OUTDOOR COVER FOR 2 TO 3 BIKES

Cover in high-density waterproof fabric with a UV-resistant finish, 200 × 75 × 110 cm. It shelters up to three bikes from rain, sun, wind and dust, with a clip fastening and an eyelet for a lock.

UP TO 3 BIKES · WATERPROOF FABRIC, UV-RESISTANT · 200 × 75 × 110 CM

What fits underneath

- **Two adult bikes** comfortably, **three** packed tight, handlebars interleaved: city bikes, hybrids, mountain bikes or e-bikes of common size.
- Measure from the ground to the top of the handlebar (110 cm high) and from front to rear wheel (200 cm long): a cargo bike or a very wide bar will stick out.

Putting it on

1. **Clean, dry bikes,** side by side, on their stands or against a wall. A wet bike under a cover sweats and rusts faster.
2. **Unroll the cover from the front** and bring it down over the handlebars, then the wheels, to the ground.
3. **Thread the lock** through the reinforced eyelet and the frames: the cover does not replace the lock, it hides it.
4. **Close the clip** under the wheels and pull the cover taut: snug, it does not flap or lift in the wind.
5. **In the morning,** unclip, pull it off from the back and shake the water off. It comes off in a minute.

Care and storage

- Plain water and a cloth; no washing machine, no tumble dryer: they damage the waterproof finish.
- Before folding it away for long, let it dry fully, spread out. Folded, it fits in a car boot or a bag.
- Air the bikes now and then and lube the chain before winter.

Specifications

Capacity	**Up to 3 bikes**	Dimensions	**200 × 75 × 110 cm**
Material	**Waterproof fabric**	Finish	**UV-resistant**
Fastening	**Clip closure**	Lock	**Reinforced eyelet**

IF SOMETHING GOES WRONG

- **It lifts in the wind**: the clip is not closed or the cover is slack; go back to step 4.
- **Mist or drops inside**: that is condensation, not a leak. Bikes covered wet or a cover never aired: lift it on a fine day.
- **It does not reach the ground**: a bike too tall or too long for the size; check the measurements.

WHAT IT DOES NOT DO

- Waterproof does not mean sealed against condensation or water rising from the ground. For a winter of several months a shed is still better: it is made for everyday use on a balcony, a terrace or in a garden. It does not protect against theft.
