QUICK GUIDE

INDOOR DUST COVER FOR BIKES

Stretch cover in polyester and spandex, about 150 cm, that wraps the wheels and the lower frame. It keeps mud, sand and tyre marks inside the cover rather than on your floors and walls.

ROAD, MTB, FOLDING BIKE · POLYESTER + SPANDEX · ≈ 150 CM, BLACK

What it does

Pulled on over the wheels, it covers the tyres and the frame up to chain height: no more marks on the floor or on the wall the bike leans against, no more dust settling on a freshly lubed chain. The fabric stretches over a road bike, a mountain bike or a folder; the elastic bands hold it without straps. Saddle, handlebar and upper frame stay uncovered.

Putting it on

1. **Dry bike.** A wet bike shut away rusts faster than a bare one: let it drip and dry before covering it.
2. **Stand the bike on its kickstand or against a wall,** then slip the cover over the front wheel, elastic edge towards the floor.
3. **Pull it backwards** over the lower frame and then the rear wheel, and tuck the elastic bands under both tyres.
4. **To take it off,** turn it inside out starting from one wheel: the dirt stays inside. Shake it out outdoors now and then.

Care and storage

- Cold wash, by hand or machine, air dry. No tumble dryer, no radiator: heat slackens the spandex.
- Folded, it fits in a bag pocket: handy in a car or a lift too.

Specifications

Use	**Floor, wall and frame protection**	Compatibility	**Road, MTB, folding bike**
Material	**Polyester + spandex**	Length	**≈ 150 cm**
Hold	**Elastic bands**	Colour	**Black**

IF SOMETHING GOES WRONG

- **The cover slips or rides up**: the elastic bands are not under the tyres, or the bike is standing on the cover; go back to step 3.
- **It does not reach both wheels**: the bike is longer than about 150 cm (cargo bike, fat bike). It is made for common sizes.
- **Condensation or smell inside**: the bike was covered wet; take it out and let everything dry.

WHAT IT DOES NOT DO

- It does not wrap the whole bike: to cover saddle and handlebar too, use the Velkyne full-cover zipped cover. It is not waterproof: no parking outdoors. It is not a lock.
